SECTION A - SUPPLEMENTAL INFORMATION

The purpose of this modification is to clarify the requirements in the Technical Data Package.

- The wooden rack, P/N 12011811, IS NOT REQUIRED to be furnished with the Universal Storage Rack.
- There are two (2) different shelves, welded construction, required in making the Universal Storage Rack.
  - The first type of shelf is shown on sheet 4 of drawing 12011919 and consists of parts -6 and -7, making up assembly -17. Five (5) of these shelves are required and are shown in the assembly on sheet 2 of 12011919. The assembly view on sheet 2 incorrectly refers to the shelf assembly as -7, this is a typo and should be -17 as stated above.
  - The second type of shelf is 12011920 and ONLY ONE of these is required. This shelf is situated between the top shelf and first shelf as indicated on sheet 1 of 12011919.
- Although welds are to be produced in accordance with Commercial Specification ANSI/AWS D1.1, offerors should note that the Government considers welding to be a critical process. Weld samples, welder qualifications, and procedures shall be approved prior to production.
- Clause DS7204, Unitization/Palletization, has been revised to include the following exception: "The dimensions specified in this clause that refer to length, width, height, and cubic feet of the palletized load do not apply for this contract".
- As a result of this amendment, the closing date for proposals is extended until 03 April 2000, 3:45 p.m. local time.

SECTION D - PACKAGING AND MARKING

Status	Regulatory Cite	Title	Date
D-1	CHANGED 52.247-4521 TACOM-RI	UNITIZATION/PALLETIZATION	JUL/1998

Shipments of identical items going to the same destination shall be palletized if they have a total cubic displacement of 50 cubic feet or more, unless skids or other forklift handling features are included on the container. Pallet loads must be stable and to the greatest extent possible provide a level top for ease in stacking. A palletized load shall not exceed 52 inches in length or width, or 54 inches of height. When LEVEL A packing is required, a four-way entry pallet or pallet box shall be used to contain the load in a manner that will permit safe multiple rehandling during storage and shipment.

EXCEPTION: The dimensions specified in this clause that refer to length, width, height, and cubic feet of the palletized load do not apply for this contract.

(End of clause)

(DS7204)
